Uniting style with flexibility

Intoo loose lay planks and tiles are easy to lift, remove and reuse, making it a hassle-free solution for office, retail and hospitality projects. Your sub-floor will remain accessible and intact, to ensure no disruption to business.

The collection's design allows you to mix structure and colour for a signature look. The warm, matte finish offers scratch and stain resistance for a comfortable and durable indoor space.

Installation

1 Underlay

Moduleo Intoo is a smart flooring solution that's easy to install. The planks and tiles can be installed using a tackifier, a non-permanent adhesive. This allows you to easily remove and replace the flooring whenever you need access to the raised access floor.

Finishing

2 Skirtings

Your floors and walls are bound to meet. So why not make it a smooth transition? Pick your favourite skirting to complete the look.

Moduleo is a part of **Unilin**.
From reducing emissions to generating renewable
energy, discover how we are collectively embracing
our responsibility.

On the planet's side. In it for the long run.

Our planet is facing a huge challenge. And we are taking our responsibility. How? By producing our floors more consciously and designing them to last. And when they finally do wear out, we recycle them. Over and over again. In our in-house recycling facility we recycle old floors into new ones. Because today's throwaway culture isn't ours. We are in it for the long run. And our floors are too.
