

Heritage Oak Opal White - 41007014

HERITAGE If you seek the authenticity of rustic oak, Heritage is your perfect choice.

Not so long ago, some forms of oak were thought too coarsely grained for flooring. Today, this rustic style with its characterful knots and natural colour variations is highly prized. Heritage's natural features lend the wood a seemingly century-old patina, adding a distinctive touch to your home. Skillful brushing and staining bring out the details that make each board unique.
