

Prestige Oak Granite - 7877054

PRESTIGE

A sophisticated, naturally aged look, as if planks had been left to be weathered by sun, sand and wind.

Prestige celebrates nature's creation and wood's intrinsic strength and power to stand the test of time. Careful brushing enhances the structure and patina of the wood, as though it had been weathered by sun, sand and wind. The effect is a smooth and rustic appearance – like an old wooden bench on a windswept promenade by the ocean, season after season.
