| MAINTENANCE |
|--|
| Tarkett wooden floors have a Protoco surface treatment and therefore a strong protection against normal wear, abrasion, scratches and stains. Some floors will require more frequent maintenance for increased life span. Generally these products are light coloured floors and hardwax oiled floors, particularly with brushed surface and/or highlighted details, such as saw marks. Please always refer to maintenance guidance available on websites. |

Tarkett's international range of floors comprises many different products. Some of these may not be for sale in your country. Although every care has been taken to reproduce images that reflect the finished product, the quality of monitor and printer and the nature of wood results in variations in the color and structure of individual planks.
