Agito

An innovative play system with flexible play functions that encourages movement and games – combining climbing walls, slides, balance bars and climbing nets.

All Agito units are available in two colour options – blue or grey.

Agito Aura, colored LED lights that light up at dusk, is available for Corro, Crystal, Igloo, Q and Vox.

CRYSTAL AURA

The Agito Aura is equipped with coloured LED lights that light up at dusk and create an ambiance during the dark hours, stretching the number of hours that the equipment can be used. This is especially valuable in countries where the length of daylight changes considerably with the seasons. Or where it is too hot to play in the daytime.

The centre of attention

The shimmering Aura lights create an exciting focal point in any play environment.

The lights are placed on top of each post and in the rotation moulded play functions, like the tubular slide. They shift in four colours in an inviting, vibrant play of light.

Aura is available for Igloo, Corro, Q, Vox and Crystal.

Technical information

Waterproof plastic covered LED lights in 4 different colours. Powered by low voltage electricity (24V). The power source should be placed at a maximum of 5 meters from the Agito Aura.
