

# NRG

## Large Arch Specification:

Size - 505cm long x 287cm high.  
Constructed from Ø114.3 x 3mm Circular Hollow section.  
Structural Steel.

## Small Arch Specification:

Size - 375cm long x 235cm high.  
Constructed from Ø88.9 x 3mm Circular Hollow section.  
Structural Steel.

## Low Level Item Specification:

Sizes vary, see catalogue for dimensions.  
Constructed from Ø114.7 x 3mm Circular Hollow section.  
Structural Steel.

## Rope Specification:

Ø16mm hand ropes - Ø6 Strand steel reinforced combination rope with a Polypropylene fibre core and braided nylon sheathing. Aluminum end fixing ferule.  
Ø24mm foot ropes - Ø9 Strand steel reinforced combination rope with a Steel Wire core and braided nylon sheathing. Grade 303 Stainless Steel End fixing ferule.

## Other Materials:

Board Material - 19mm High Density Polyethylene.  
Rubber Stepping bollards - SBR Recycled Rubber.  
Plank Material - "Plaswood" 100% recycled waste plastic.  
Chain - 8mm Sheradized Chain.

## Steel Finish Specification:

Shotblast to SA2½.  
Zinc rich primer undercoat to 80 Microns Interpon PZ770.  
Top coat to 50 microns Interpon 610.
